Vampire Library

*Here we are,  
You and I...*

이선영

It's too cramped in here.

Why don't we move our stage to somewhere higher?

You've finally  
appeared....!

Vampire.

The day I first saw  
its like,

as a helpless child,

I could do nothing but  
watch my parents being  
torn to pieces.

Fei

Not  
this  
time.

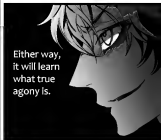

Sound  
the alarm.

Roger!

All  
Hunters are  
to assemble  
immediately.

If it's a vampire,  
  
exterminate.

If it's a  
mutant,  
  
capture for  
research.

Either way,  
it will learn  
what true  
agony is.

...What  
about the  
location,  
sir?

Hasn't it  
told us  
already?

There's only one  
place higher than  
the top floor.

The roof.

What were you thinking?

Coming here alone...

Don't worry.

Louis and Olivia will be here shortly.

CRASH

Oh, but

I didn't tell them our exact location.

*I only told them the address.*

...You cheater!!

It will take  
some time for  
our guests to  
arrive.

Before  
that...

You, do you  
understand  
what you've  
done?

Absence from  
work without  
permission.

That was  
because the  
chairman gave  
me a task.

Starving me  
without my  
consent.

Which was  
why I left you  
three blood  
picks.

What, sir, I got  
so mad I burst  
all of them.

What?!

But by far,  
your biggest  
mistake —

As I feared,

it must  
be...

He must also  
think I am  
a spy...

TENSE...

—is that I  
was not the  
first person  
you told

that you  
were not a  
spy.

You  
brat.

I knew  
your reason  
for entering  
the library  
from the  
beginning.

That's  
why I put  
you under  
surveillance  
at first

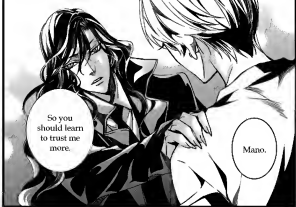

and  
disposed of  
anything that  
could be used  
against you.

If I had  
had any  
lasting  
suspicious

I wouldn't  
have made you  
my contractor.

The pain  
in my chest

has disappeared.

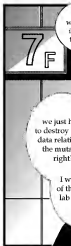

All employees are urged to evacuate immediately.

All floor seven employees are to assemble on the rooftop.

I repeat...

Now then, while the chief is distracting the Hunters,

we just have to destroy all the data relating to the mutants, right?

I will take care of the office. The lab is all yours, Olivia.

Got it.

...  
What is  
wrong?

Just as  
you have  
desired

the mutant  
you wanted to  
capture so badly  
has appeared  
before you.

Is this  
the extent of  
your power?

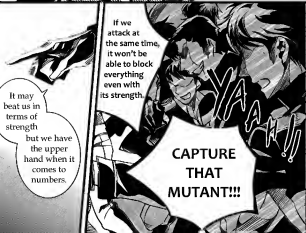

No way.

This guy  
is totally  
different from  
the Gourmets.

It's too strong.

But,  
nothing is  
impossible.

It seems I have  
underestimated  
you.  
My  
apologies...

*Your  
memories of  
the vampire  
mutants*

*Shall fade*

*Into  
oblivion!*

What just happened?

...My head feels like it's about to explode.

...This can't be.

I've never  
heard of a  
vampire that  
could use the  
power of  
words.

No!  
If I lose  
consciousness  
now,

I will  
forget  
everything.

Everything related to the mutants...

Could it be...

Seho...

Even my  
memories  
of Mano  
...?!

Mano...

You used  
to follow my  
every word.

If it was  
for me,

You  
would do  
anything...

you would  
even lie.

With your  
looks, I'm positive  
that you'll be  
hired!

But why

They have become  
important to you.

Even more so than me.

did you like to meet

You've found  
companions...

Mano

...

Don't  
go...

...Damn it.

I shouldn't  
have sent him to  
that library...

...Olivia.

Olivia.

You

are  
the only  
woman

who  
can  
kill  
me.

Did you see that?  
The top floor just  
exploded!

Quick,  
someone  
call 911!!

They're  
really  
some-  
thing.

Oh  
wow...

Those  
mutants...

Are you  
alright?

STARTLED

...Let's  
rest for a  
moment.

Haa...

...I am  
sorry.

For  
what?

"I got so  
mad I hurt  
all of them."

Since then...

...how many  
days have  
passed?

You...

Get far  
away from  
me. Now.

Soon I will  
lose my ability  
to reason,  
and as my  
contractor you  
will be in grave  
danger.

...I could  
kill you.

...No.

You told  
me to trust you,  
didn't you? So I  
trust that you  
won't kill me.

So stop  
talking

and just  
take my  
blood.

GRUNCH
